

Residential Swimming Pool, Spa and Hot Tub Safety Act

Notice of Requirements

***Note: This form must be on job site at time of inspection**

Permit No. _____

I (We) acknowledge that a new swimming pool, spa or hot tub will be constructed or installed at _____ (Address), and hereby affirm that one of the following methods will be used to meet the requirements of Chapter 515, Florida Statutes and Section 5-129 of the City Ordinance.

Please initial the method(s) to be used for your pool:

- _____ The pool will be isolated from access to the home by an enclosure that meets the pool barrier requirements of Florida Statutes 515.29;
- _____ The pool will be equipped with an approved safety pool cover that complies with ASTM F1346-91 (Standard Performance Specifications for Safety Covers for Swimming Pools, Spas and Hot Tubs);
- _____ All doors and windows providing direct access from the home to the pool shall be equipped with an exit alarm complying with UL 2017 that has a minimum sound pressure rating of 85 dB A at 10 feet. The exit alarm shall produce a continuous audible warning when the door and its screen are opened. The alarm shall sound immediately after the door is opened and be capable of being heard throughout the house during normal household activities. The alarm shall be equipped with a manual means to temporarily deactivate the alarm for a single opening. Such deactivation shall last no more than 15 seconds. The deactivation switch shall be located at least 54 inches above the threshold of the door.
- _____ All doors providing direct access from the home to the pool will be equipped with self-closing, self-latching devices with release mechanisms placed no lower than 54" above the floor or deck;
- _____ A swimming pool alarm that, when placed in a pool, sounds an alarm upon detection of an accidental or unauthorized entrance into the water. Such pool alarm must meet and be independently certified to ASTM Standard F2208, titled "Standard Safety Specification for Residential Pool Alarms," which includes surface motion, pressure, sonar, laser, and infrared alarms. For purposes of this paragraph, the term "swimming pool alarm" does not include any swimming protection alarm device designed for individual use, such as an alarm attached to a child that sounds when the child exceeds a certain distance or becomes submerged in water.

I understand that not having one of the above installed at the time of final inspection, or when the pool is completed for contract purposes, will constitute a violation of Chapter 515, F.S. and will be considered as committing a misdemeanor of the second degree, punishable by fines up to \$500 and/or up to 60 days in jail as established in Chapter 775, F.S.
